Component Mission

The mission of the Alaska Permanent Fund Corporation is to maximize the value of the Permanent Fund through prudent long-term investment and protection of principal to produce income to benefit all generations of Alaskans (Differs from CH 124, SLA 2002).

Component Services Provided

Investment of financial assets in equities, fixed income, real estate, and alternative investments. Produce earnings sufficient to meet dual legislative mandate: inflation proofing and dividends. Provide professional investment management, accurate accounting, policy compliance, and asset allocation for all Permanent Fund assets (including Science and Technology, Mental Health Trust and International Trade & Business Endowment). Distribute quarterly and annual financial reports, informational brochures; and increase public awareness and understanding of Permanent Fund goals and objectives.

Component Goals and Strategies

- Apply the Prudent Investor Rule to all investment decisions and maintain an asset allocation to achieve the Board's long-term investment return target of 5% after inflation.
- Protect the purchasing power of the entire Fund against inflation over the long term.
- Consolidate and keep current all corporate information technology resources, systems and capabilities; and maximize their usefulness to Alaska Permanent Fund Corporation (APFC) staff.
- Ensure strong monitoring and internal control systems are in place for financial reporting and policy / contract compliance.
- Provide reliable and objective information to the Administration, Legislature and the people of Alaska on all matters affecting the Fund.

Key Component Issues for FY2003 – 2004

- Plan for and manage investment risk during times of increasing market volatility, while taking advantage of opportunities to increase returns (including the increased statutory flexibility).
- The balance of the Earnings Reserve Account has decreased significantly over the past two years from distribution, inflation proofing transfers and negative markets. There is an increased chance that volatile markets during FY03 could take the earnings reserve to zero, thus there could be no distribution from the Fund for dividends or other purposes.
- Continue to promote a constitutional amendment to adopt a payout rule based on a percentage of market value (POMV) distribution of Fund income.
- Ensure investment policies maintain the delicate balance between the Fund's competing mandates of protecting the Fund to benefit future generations and producing income to benefit current generations.

Major Component Accomplishments in 2002

- Even though the Fund earned a negative 2.2 percent total return in FY02, we out-performed our benchmark target return by 1.4%.
- Fully inflation-proofed the Fund principal for the 20th consecutive year, maintaining it's long-term purchasing power.
- The Board has become increasingly engaged in corporate governance by: establishing a corporate governance committee (chaired by the Attorney General), joined the Council of Institutional Investors and adopted new policies on proxy voting and class action litigation.

Proposed Changes in Levels of Service for FY2004

The Alaska Permanent Fund Corporation's \$6.9 million request represents a \$381,000 (5%) decrement from the FY03 authorized budget. The decrement depicts reduced travel allocations for staff and Trustees that reflects the actual travel costs in FY02 and FY03. The Professional Services budget lines were reduced affecting primarily legal services and the investment and information technology consulting categories. Financial information networks, printing, equipment, and supplies were also reduced.
